

Dear parents

We are in the midst of a more deadly and contagious second wave of Corona virus with a record number of cases every day.

The best way to limit the transmission of COVID-19 is to continue to follow the existing advice on prevention of the spread of the virus .

The recommended protocol is:

Regular hand-wash

Physical & social distancing,

Wearing mask properly

Keeping indoor spaces well ventilated.

Kindly continue to encourage your ward to follow the Covid-appropriate behaviour and COVID-safety guidelines.

Stay safe, stay healthy

Our prayers for everyone's well being .
