

The Prime Minister's Global Fellowship Programme

We are proud to announce that Ramjas School, R.K.Puram was identified among five schools in Delhi, to participate in "The Prime Minister's Global Fellowship Programme". The partnership programme between India and the British Government has been launched in India for the first time and nurtures outstanding talent and enterprise in young people through international exposure. It showcases the best of India and the best of our schools and schooling system. Two accomplished and brilliant students of U.K, Charlotte Jackson and Alice Thornton had been selected by the Prime Minister of U.K. for this programme. They spent two weeks in the school interacting with the students and sharing information thus learning about the education system and various outreach programmes in the school. They were hosted by one of the students, Aakriti Sharma of Class XI who enabled them to observe, participate and record features of home life and family values. Mrs. Kamala Subramanian, PGT (English), Ramjas School, R.K.Puram was the Visit Co-ordinator for the programme. The whole programme was managed by the British Council in partnership with the school and co-ordinated by the Principal of Ramjas School, R.K.Puram, Mrs. Rachna Pant.

On August 13th, the last day of their visit the two U.K.students presented a report on their visit and showcased the event. Mrs. Kanta Wadhera and Mrs. Nupur Sachedeva from British Council attended the presentation. They made special mention of the hospitality of the school students and host family. They thanked the Principal, staff and students of Ramjas School for their successful completion of their project. The project had included familiarization, acclimatization to the school schedule and participation in school activities, all of which had been successfully accomplished!
